

## The Month of June

It's a time we have lots of graduates,  
The graduates must make a choice,  
Trade school, military, business  
Or maybe college.

Hopefully their education provides,  
Them knowledge.  
They'll have jobs they enjoy,  
And also make many dollars.

Lots of weddings occur in June,  
Couples going away for honeymoon's.  
Choice of a home and how to get income,  
For their future together.

June marks the beginning of summer,  
Life in it's prime.  
Vacation time, hiking, fishing,  
Camping at the park or hitting the links.

Many species will be starting families,  
Such as wild turkey's and other wild birds,  
Or female large mouth bass or American shad.  
The flowers will be in bloom.

Strawberries and asparagus  
Are ready for harvest.  
In June families can go to the beach,  
Play cards and have ice-cream for a treat.
